

That 'Soviets Want To Communize World'

## Red Paper Says Kennedy Told 'Cock And Bull' Story

MOSCOW (AP) — The government newspaper Izvestia declared Sunday night President Kennedy's idea of putting routes to West Berlin under international control is "doomed to failure."

Kennedy made the suggestion in an interview last week with Alexei Adzubel, editor of Izvestia.

Walter Ulbricht, Communist party chief of East Germany, was first to reject the idea in a speech published Saturday.

Izvestia saw in the plan an attempt to help West German "revenge seekers" get control of the communications. It declared East Germany would use its "sacred right" to regulate all land, water and air routes into isolated West Berlin.

Accuses JFK

Izvestia also accused Kennedy of telling a "cock and bull story" in saying the Soviet Union wants to communize the world. Of all

Kennedy's remarks, this seemed to have stung the Kremlin most. Declaring the Soviet Union always has been against the export of revolution, Izvestia demanded: "How can a government leader repeat this cock and bull story, which is nearly 44 years old?"

In an editorial that undoubtedly represents the government's carefully thought-out response to Kennedy, Izvestia said the only thing the Soviet Union wants to do is to promote freedom.

"But when the United States and her partners give freedom to the West German revenge seekers and seek to prolong for an indefinite time the state of alarm and confusion in the center of Europe; flood West Germany and West Berlin with their troops and weapons—this is called 'allowing other countries to live as they like,' it added.

"Who is rushing to South Viet Nam in order to deprive the people of the rights of free choice of what system of administration they want—Soviet generals and diplomats?

Who Interferes

"So who is interfering in the affairs of other countries? The answer to this question is well known on all continents of the globe. This is being done by the United States of America.

"We are compelled to reiterate that neither the United States nor anybody else will play the role of an arbiter in the affairs of nations that have rid themselves of capitalism."

Izvestia specifically mentioned Cuba in this connection.

As for Kennedy's plan for some form of international control over the routes leading 110 miles through East Germany to Berlin, Izvestia said: "Upon the sovereign state of East Germany they want to impose an international—a foreign-administration of its highways.

"They want to impose it only because East Germany intends to use and will use the sacred right to regulate its own roads, rivers and airways, a right which Washington is not ready to recognize."

"In principle an international administration is a worsened version of the occupation rights which the United States is getting ready—judging from the words of the President—to expand at the expense of the rights of another state, the German Democratic Republic. We must declare, frankly, that those plans are doomed to failure."

Hunters reported killing 38,430 bucks in 1960. The antlerless deer kill was 38,776 last year.

In addition to the usual safety advisories the commission this year is posting signs in Elk and Cameron counties warning hunters not to confuse elk with deer.

Although no elk were killed last year, the commission feels many hunters still don't know the difference or mistake the animals despite the much larger size of elk.

Game protectors said about five elk calves were born this season. In past years elk kills have averaged the number of the increase. The mistaken or indifferent kills have resulted in an elk population of about 35.

## Deer Hunters To Have Fair Skies

HARRISBURG (AP) — The weatherman promised fair skies and mild temperatures for sportsmen invading the countryside Monday for the opening of Pennsylvania's 12-day buck season.

The U.S. Weather Bureau at Harrisburg said Sunday temperatures at dawn will range in the 30s to 40s. They should jump to between 54 and 60 degrees during the afternoon, the bureau said.

## Veteran PRR Workers Held In Mail Theft

PHILADELPHIA (AP) — Three veteran employees of the Pennsylvania railroad were arrested Saturday on charges of stealing thousands of dollars worth of goods from the mails.

Police said at least \$8,000 in loot has been recovered.

Those arrested: Walter C. Fulmer, 35, an electrician; Clarence Nolan, 39, a car inspector; and Edgar W. Bishop, 45, a coach cleaner.

Fulmer and Nolan have been with the PRR 16 years, Bishop for 11.

Lt. Daniel McCann gave this account:

Railroad police were tipped Saturday to check Nolan's car, parked outside the 30th street station. They found it held about \$500 worth of merchandise—toys, clothing, a movie camera and projector, among other things.

They questioned Nolan at work in the station.

McCann and two of his staff said Nolan admitted taking the merchandise and implicated Fullmer.

Railroad police and postal authorities reported that Fulmer told them that in the last year he would push a trash wagon up to mail cars and to stacking areas, and toss parcel post bags into it. Then, they said, they would take the wagon to Nolan's car and put the sacks in it.

**Goldfine Due In Court On New Charge**

BOSTON (AP)—Millionaire industrialist Bernard Goldfine, 71, and his 43-year-old secretary, Miss Mildred Paperman, are due in federal court Monday to face charges of violating probation.

Goldfine will be brought to Boston from the federal correctional institution at Danbury, Conn., where he is serving a year for income tax evasion.

In addition, Goldfine is under five years probation on a suspended 18 months sentence on a second indictment. A condition of that probation was that he identify the recipients of about \$600,000 unaccounted for in his business operations.

Goldfine was jailed last June. Officials said they are still awaiting disclosure of what happened to the \$600,000.

Miss Paperman was placed on three years probation last June after she pleaded guilty to an indictment charging her and Goldfine with evading taxes of \$304,784 owned by his Strathmore Woolen Co.

Government officials said the new charges of violation of probation stem from the alleged smuggling of letters to Goldfine in connection with his business operations.

ELISABETHVILLE, Katangans, embittered by an airport clash with Indian troops of the U.N. Congo Command, fired on United Nations planes and helicopters Sunday.

Civilians in this secessionist provincial capital, fearing a return of open warfare, kept under cover.

Heavy mortar fire was heard in the area of the airport, though both U.N. and Katanga authorities denied they were responsible for this latest break in the cease-fire proclaimed Sept. 21.

Far to the north, a U.N. spokesman said, automatic bursts from a Katanga gendarmerie strong point near Nyunzu hit one plane on a routine flight and wounded an Irish U.N. officer, Capt. Roger Morley.

Each side accused the other of making off with some of its men.

**Be Confined**

Messages whipped between U.N. offices in Elisabethville, Leopoldville and New York con-

cerning the tense situation.

A spokesman in Leopoldville said the United Nations has demanded that all Katanga troops be confined to barracks and we are discussing what further means we can use to bring the situation under control.

The new flareup came after a night of sporadic shooting set off by a brush with the Indian troops and President Moise Tshombe's national police at the Elisabethville airport.

Foreign Minister Evariste Kimba declared the U.N. troops fired on the Katangans while the latter were checking passes. He said 20 gendarmeries were missing and believed killed.

George Ivan Smith, acting U.N. civilian chief here who himself was rouged up by a group of Katanga military men last Wednesday, denied it. He blamed "drunken and disorderly behavior" by the gendarmeries.

**How It Began**

The U.N. story was that the

fighting began after one of the Katangans tried to interfere with a woman at the airport.

Smith told newsmen no one was killed. He reported the Indians captured 46 gendarmeries and that all were later returned to Katanga authorities. Two of these apparently were slightly wounded.

U.N. spokesman Abdul Atif Succi said 10 U.N. military men and an Italian Red Cross worker who was driving a truck loaded with Baluga refugees disappeared after being stopped in the night by Katanga police. Succi added that the Katanga government promised their quick release.

The U.N. men were 7 Swedes, 2 Norwegians and 1 Argentine.

Meanwhile, five U.N. investigators, including a representative of Italy's air force, flew to Stanleyville, where Gen. Victor Lundu claims to be holding the Congolese troops who butchered 13 Italian U.N. airmen at Kindu three weeks ago.

## Soviets Warn N-Tests May Resume

Report Comes After U.S. Sets Off Low-Yield Test

### Before Crash Fatal To 74 Recruits

### Crash Pilot Failed 3 Tests

(The pilot of the Imperial Airlines plane which carried 74 recruits to their destination of three flying tests prior to the fatal incident. Wednesday Nov. 29, 1961, reported in the Washington Daily News in a story (Dec. 1) by Jack Steele, Scripps-Howard Staff Writer. His story follows.)

Ronald H. Conway, 29-year-old pilot of the Imperial Airlines plane which carried 74 Army recruits to their deaths at Richmond, Va., failed three flying tests prior to the fatal accident.

One CAB official said flatly that Mr. Conway had "lied" in not mentioning the test failures. He added that the failures might be significant in evaluating Mr. Conway's flying proficiency.

But FAA officials said Mr. Conway might have overlooked the failures because he did not consider them important. They said it is not uncommon for airline pilots to fail several tests before getting commercial licenses.

But these records were not brought to light during two days of CAB hearings in Richmond last week to find the "probable cause" of the crash. Hearings will be resumed Tuesday in Miami.

Mr. Conway, during four hours on the witness stand at the Richmond hearing, was asked if he had encountered any trouble in obtaining his pilot's certificates.

The answer was "No." He explained he had to repeat one flying test because of mechanical failure of a plane on which he was being checked out.

**No Comment**

Officials of the two Federal

agencies refused to comment publicly on Mr. Conway's test failures or on the fact that they were not disclosed at the Richmond hearing. And they disagreed on the significance of the two events in discussing them privately.

One CAB official said flatly that Mr. Conway had "lied" in not mentioning the test failures. He added that the failures might be significant in evaluating Mr. Conway's flying proficiency.

But FAA officials said Mr. Conway might have overlooked the failures because he did not consider them important. They said it is not uncommon for airline pilots to fail several tests before getting commercial licenses.

The first report on Mr. Conway's test failures turned up yesterday in material on Imperial Airlines' pilots supplied by CAB chairman Alan S. Boyd to Rep. Francis E. Walter (D., Pa.). Rep. Walter had requested the information because 29 of the recruits who died in the Richmond crash came from his district.

**Sends Letters**

Rep. Walter today sent letters to Chairman Warren Magnuson (D., Wash.) and Oren Harris (D., Ark.), of the Senate and House Commerce committees, urging them to hold up legislation approved earlier this year to permit non-skied airlines to continue operations under relaxed standards.

The records — later con-

firmed by CAB and FAA officials—showed that:

• Mr. Conway twice was turned down for his commercial pilots license early in 1954 after he failed spot-landing and accuracy-landing tests. He failed these tests March 31 and again April 2, but finally passed them and was given his commercial license April 20, 1954.

• Mr. Conway also failed an instrument-flying test April 16, 1955, but took it again and passed it four days later and received his instrument rating.

• Mr. Conway did not get his Air Transport Rating (ATR) to pilot a Lockheed Constellation—the plane involved in the Richmond accident—until last May 15, less than six months before the Nov. 8 crash.

• Altho he had racked up 4433 hours of commercial flying time—most of it as a copilot—he did not have 293 hours of flying experience in a Constellation at the time of the Richmond crash.

• James A. Greenlee, 45, was acting as co-pilot on the ill-fated flight, altho he was much senior to Mr. Conway in flying experience. Mr. Greenlee had flown more than 17,000 hours, but only 352 in Constellations. He was killed in the crash along with two other crew members.

• William Feyphress, 31, the flight engineer and only other survivor, had received his certificate for Constellations only last Sept. 6—two months before the crash. He had only 114 hours on Constellations.

### Predict Rosy Production, Income In '62

WASHINGTON (AP) — Forecasts that 1962 will bring record production, income and profits, along with a steel price rise and possibly a new dollar crisis, emerged from a business outlook conference here Sunday.

West Berlin police said the Communists apparently planned to leave open a narrow passage way that would funnel all traffic past their customs house, which is slightly to one side of Friedrichstrasse. They quoted East German police as saying the Friedrichstrasse crossing would remain open.

The 30 Americans in battle dress apparently were rushed to the border as a show of Allied strength to the hundreds of armed helmeted East German troops facing West Berlin.

Gateways between East and West Berlin also were being narrowed at six other gaps in the wall allotted by the Communists to West Germans and West Berliners.

Noting that he had been called a crusader, Walker commented, "If I am a crusader, I am a crusader for the truth."

Walker was asked his opinion of the belief voiced by both President Kennedy and former President Dwight D. Eisenhower that "extremists" can cause great damage to the country, Walker replied: "I am suggesting that the military is censoring, is censored, and has been censored and continues to be censored."

Asked if he intended to carry out his anti-Communist program—the word "blue"—symbolic of loyalty—includes lectures on communism, American citizenship, religion, and methods of Communist infiltration.

The Army's investigation cleared Walker on accusations that his post-training course was patterned on the literature of the militarily conservative John Birch Society, although its report said Walker was a society member.

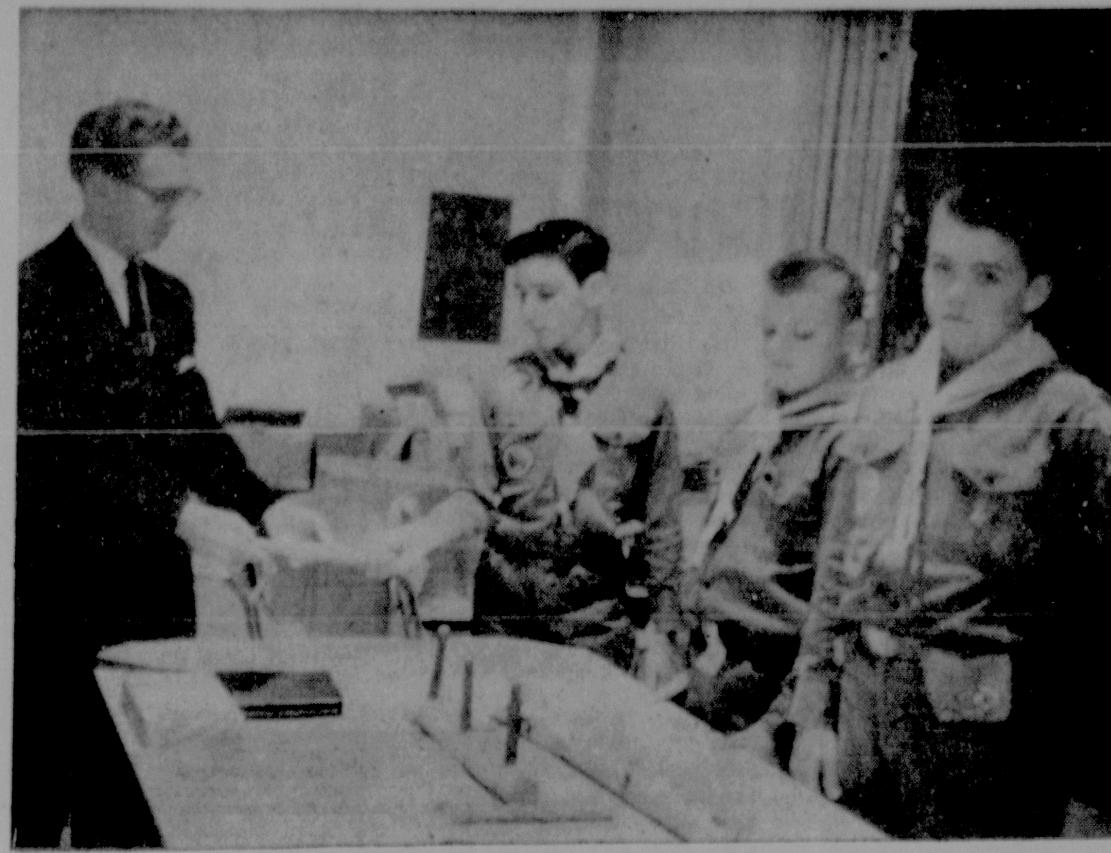

Asked in the TV interview if he was not allowed by the Army to tell his troops what he regarded as the truth, Walker replied: "I am suggesting that the military is censoring, is censored, and has been censored and continues to be censored."

## Public Assistance Case Load Drops In County In October

Record Harrisburg Bureau  
HARRISBURG, Dec. 4.—The

State Department of Public Welfare said today that 43 public assistance cases were closed out in Monroe County during October, a drop of eight from the preceding month.

On the other hand, 45 new cases were opened during the month bringing the current number of assistance cases down to 463 from the previous month's 469.

As for the number of persons dependent on public assistance—842 or 2.1 percent of the county population is listed as receiving relief in one form or another during October. Assistance payments to the 842 relatives stood at \$33,177.

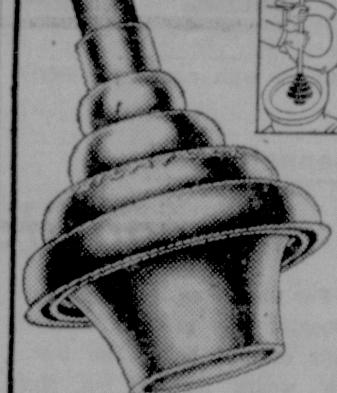

A breakdown of county assistance computations shows 192 old age assistance cases involving 198 persons being paid grants totaling \$11,528 for the month; 54 blind pension cases involving 54 persons with benefits of \$3,718; 118 aid to dependent children cases involving 476 countians and grants totaling \$12,882; 42 general assistance cases involving 52 persons and payments of \$1,956, and 57 aid to disabled assistance cases in-

volving 61 persons and grants totaling \$3,093.

Income from employment of case members or other persons in the household were given as the major reasons by the department for the close out of the 43 public assistance cases.

## Safety In Hunting

With the opening of the deer season this morning, the wooded sections of Monroe and Pike Counties will be literally crawling with hunters seeking to bring home the venison.

Despite the fact that warnings are issued every year, and the fact that a matter of common sense and courtesy, there will be some hunters killed in the woods and many will be seriously injured in careless accidents.

Game hunting is a comparatively safe sport. The gun usually provides happy hours in the open but, unfortunately, a sporting arm sometimes causes hurt and sadness.

Occasionally, there is a true accident involving a human, but in most cases self-shootings and cases in which one person shoots another are chargeable to one of these causes: pure carelessness, excitability, lack of firearms knowledge, greed for game, or failure to positively identify an obscurely seen object thought to be the wildlife sought.

As in the case of any participant sport, hunting has its hazards. But this does not excuse the dangerous use of instruments built to kill. Observing the

following rules would prevent most human shootings:

1. If new to the sport obtain firearms and hunting safety instruction. Learn what different kinds of ammunition and broadheads will do.

2. Always carry a gun "on safe" and until time to take aim.

3. Control your excitement. Make SURE — clearly see your target before letting fly with a lethal projectile. Sad words are, "I thought it was . . ."

4. Maintain a sense of values. Of what worth is a rabbit, deer, or squirrel compared to human safety. Enjoy yourself, but put a brake on your emotions.

5. Employ self-protection against the impulsive shooter. Wear garments of fluorescent fabric. Tests have shown blaze orange to be the most effective.

6. Choose your companions carefully. Don't hunt with a jerk.

7. If your eyesight is poor be doubly careful. Still better, see an eye doctor before going hunting and have your vision improved.

8. WATCH THAT MUZZLE at all times. Never point it toward yourself or anyone.

### Opinions Of Other Editors

## Distortion Of The Walker Issue

Those attempting to portray Gen. Edwin Walker as an "anti-Communist" martyr either willfully or ignorantly are evading the salient truths in their propaganda. They are making the charge that Walker was hounded from uniform by the Pentagon, the Kennedy administration, and by "Comsymps" (a cute John Birchite coinage contracting Communists and sympathizers) for trying to indoctrinate the troops into the nature of the enemy.

The fact is that Gen. Walker, in league with the John Birch Society and other right-extremist forces in and out of the Army, was using tax monies to incite in servicemen the canard that leading Americans in the government, in the clergy, in the field of public communications and other walks of life, are the "real" enemy — the "danger from within" theme which has been hog-washed to dangerously tragic proportions.

—Easton Express

## Angry Stockholders

I recently saw a photograph of myself in "The New York Times" giving the devil to a professional angry stockholder. According to the Anderson, South Carolina, "Mail":

"Stockholder meetings are always enlivened by the appearance of Lewis D. Gilbert, author of 'Dividends and Democracy' and other published works, who spends all of his time at annual company meetings. His family owns stock in over 600 companies! Gilbert is acid at meetings and stirs the wrath of many corporation executives."

Of course, a stockholder is entirely within his rights when he asks a question politely; if he is ill-mannered, he should be thrown out of the room. The assumption that a man may be rude because he owns a share of stock is nonsense. When a man is rude, he should be treated according to his manners. It is not necessary to tolerate bad manners. Gilbert could be useful if he chose to be.

The fact of the matter is that the function of an industry is to make goods and profits. There was no question about profits in the 19th century but in the middle of the 20th century, industry finds itself managed not by those who own an industry but by employees whose collars are slightly whiter than those of their colleagues.

These management workers have come out of the supervisory and sales forces of a company and are too often altogether unrelated to ownership. Their attitude is identical to that of the worker. They seek fringe benefits rather than wages. Their fringe benefits often consist of stock options or pensions which grow increasingly more costly to industry. Often management develops tenure as the hourly worker does and having tenure, cares nothing about profits. He uses other people's money without recognizing that profits are the essential of industry and that it is not sound economics in the capitalist system for management to take the cream off the top—the cream that rightly belongs to the owner of the stock.

This situation arises from the fact that there is a startling shortage of able manpower in management. It is common practice in industry for a com-

pany to steal ability from other companies by offering special benefits for reputed capabilities. I say "reputed capabilities" because the reputation does not always go along with accomplishment. The assumption that a man can run a shop is meaningless unless that shop makes a profit. The only yardstick of ability is profit. If a foreman can earn a profit which his boss cannot earn, the foreman is a preferable person in management.

When we speak of our industry falling behind, what we actually mean is that the production is unprofitable, that the industry is not producing new and additional capital, that management is stuff-shirted but incompetent. Thus large enterprises, that look wonderful in reports, actually are failures and are sooner or later acquired by smarter entrepreneurs because they are unprofitable.

The word "growth" has moved into the industrial picture with the object of covering up failure to produce profits. Instead of a profit there is growth. Over a period of time, unless the growth produces profits, the enterprise becomes stagnant.

Growth literally means nothing unless the company that is built by acquisitions produces profits. Too much energy and capital goes into piling up big industry which is useless if it produces no profits but looks big.

All this such an inquiring stockholder as Lewis Gilbert can say without turning a stockholder's meeting into a shenanigan.

Memos of a Girl Friday

Dear W. W.: Alexei Adzubel, the Izvestia editor who just interviewed JFK, met him at the Stork Club five years ago when JFK was a Senator.

After being introduced by Frank L. Kluckhohn, former New York Timesman and State Dept. official, they talked for about an hour. Sev-

eral months ago Kluckhohn

memorandum of State Dean

Rusk and reminded him of

the meeting and suggested the

interview . . . I think we

should explain why "The

Untouchables" was pre-empted

to offset the queries that in-

terrupt my day. Desi

Studios told me that there will

be several "pre-emptions" this

season for the simple reason

that instead of 32 one-hour

programs there will be 26. In

short: Not enough to run

weekly, etc. . . . Robert Stack

found the 5-day week bore

and so they are shooting 7

days for each episode . . . "Has

Mr. Stack definitely decided to

resign after next April?" I

asked. "Nobody really

knows," was the reply. "and we are not certain that Mr.

Stack has made up his mind, either."

A couple of fruitless meetings already have been held between Republican and Democratic leaders ostensibly over working out an "agreement" between the two opposing political factions.

It's pretty obvious now that Democrats have not any such really specific plan — other than to insist negatively that it be several "pre-emptions" this season for the simple reason that instead of 32 one-hour programs there will be 26. In

"LOOK MA, A CAMERA!" — This little deer thinks it's "fawn" to have his picture taken by The Daily Record but mother has learned to distrust men, even photographers, and so, heads for the safety of the woods. This morning hunters will fill the woods with lead. Please note that this is what deer look like, only with horns. No cows or people please!

## Stop In And Select The Perfect Gift

ALL OF US at this time of year are in quest of the "perfect gift"; in definition, this would be something that would give the recipient pleasure or enjoyment.

Walter Logan of 515 Main St., Stroudsburg headquarters for the lover of art and paintings, carries a complete stock of the artist's needs.

Such famous names as Grumbacher, American Artist, and many others for oil painting, pastel work, charcoal, water color and the like. Brushes, canvas, pallets and every other conceivable item is available.

In short, if you are looking for a gift for the artist, Walter Logan's new shop has the answers. For children or novices, there is a rack of very fine instruction books to help them. "How to" instructions to make art an enjoyable hobby.

This Christmas give a gift of lasting enjoyment . . . give an Art Gift . . . Walter and his wife, Elsie, invite you to see their selection of fine gifts.

Gift certificates are available if you're not quite sure what to get and you may also use the convenient Layaway Plan!

## Make Queenan's TV Store Your Color Headquarters

THIS Christmas, William Queenan, local RCA Victor dealer is offering the widest variety of fine electronic entertainment ever!

Advancements in TV, stereo, and radios of all types have made them ideal items to give as gifts. From the standpoint of TV, it has been acclaimed as a great boon in knitting the family together in a bond of interest and enjoyment.

This year, the addition of numerous color TV shows is stimulating the purchase of color sets. Why not consider the thought of putting color TV in your home for this Christmas?

If you're a music lover, you'll enjoy the sound of RCA Victor Stereo Hi-Fidelity and well as the superb cabinetry. These

sets are offered in a wide price range with cabinetry in modern, traditional, provincial and other stylings to perfectly blend with your furnishings.

In spite of the increased interest in TV and stereo, the radio, (portable, transistor, clock model and table model) still holds a place in the heart of young and old.

Almost wherever one goes they will want to hear some radio programming during some portions of the day. The RCA Radio line at Queenan's offers a wide variety for your selection.

If you need counsel in choosing the right gift, let Queenan's Radio and TV Service at 750 Main St., Stroudsburg, help you!

## Make New Toys From Old Ones

YOU can bring happiness this Christmas to children in hospitals, orphanages and in the families of the unemployed by refurbishing the toys your own children have outgrown or no longer enjoy. In many communities, civic and fraternal groups have organized programs for this purpose.

The easiest way to make old toys in basically good condition look like new again is with colorful quality enamels, and here are some tips to help you do the job.

First and most important of all be sure that you use only suitable enamels, particularly those that contain less than 1 per cent of lead. While most enamels meant for interior use contain no harmful ingredients, be sure to tell your paint dealer that you will be painting toys. He will sell you the right product. Under no circumstances use outside paint on toys or children's furniture.

Bear in mind that children prefer bold, strong colors, the primaries; red, yellow and blue, the bright secondaries; orange, green, purple. It takes a more sophisticated taste to enjoy pastels and less lively darker shades. They also like the shininess of gloss enamel.

First step, is to wash the toy with detergent to remove finger marks and other soil. If the old finish is still glossy, it should be dulled with sandpaper so that the new coating will adhere better. Any cracks or holes in wood toys should be filled with putty or plastic wood which should be permitted to dry before being sanded smooth.

Spots on wood toys from which the old finish has been chipped should be filled in with enamel undercoater before the new finish is applied.

For small articles, you'll find that self-spraying enamels in aerosol cans are the easiest and most practical to use. If more than one color is to be applied, protect the already painted areas with masking tape.

# Just Between Us —

—By Bobby Westbrook

The comfortable philosophy that "Work will always wait for you" has been responsible for getting me in many last-minute panics but on the whole I seldom have regretted the fun things I've done instead. Rather, I begrudge the rare occasions when I let household duties interfere with pleasures with family or friends, like cleaning closets instead of taking a hike, or turning down a bridge game for ironing.

However, it was a little shock last night to go home to find the skirt I'd started to shorten Saturday morning still on the arm of the chair where I'd left it to jump at the chance of a trip. But, I consoled myself, this was really a bonus weekend for weather, the kind we won't hardly see much of no more.

Two local girls were making excellent use of the weather yesterday by going horseback riding but they had chosen a rather unusual setting for their ride: smack down the middle of the new Thru-way where the grassy median made a perfect bridal path—perfect, that is, if the horses don't mind the whizzing horseless carriages on both sides and the girls don't get pitched off.

It looked like such fun that it probably isn't legal although I don't remember any signs "No Horses Allowed." Speaking of signs, there was one on Dr. Leitner's hospital room "No Visitors Allowed: And, Doctor, this means you!"

The cigars should be going around the hospital staff this morning when Grandpa Harry Smith gets back from seeing his new granddaughter: whose father, by the way, I last saw over in Rome where he was a member of the U. S. Fencing Team at the Olympics.

And whose mother, Betsy, and I had such an unforgettable day exploring the hill across the Tiber. Which only proves my point: when a door to adventure opens before you don't fence yourself in with self-forced bars. Their next trip abroad may not come until Nadine makes the girls' fencing team.

## Mrs. Johns Honored On 85th Birthday

Mrs. Fannie Johns celebrated her 85th birthday yesterday with a family party at the home of her son-in-law and daughter, Mr. and Mrs. Harry Lynn, with whom she makes her home on the Monroe-Carbon Trail.

There were three birthday cakes, one baked by each of her three daughters, Mrs. Arthur Stackhouse, Shydersville; Mrs. Ralph Mansfield, Cherry Valley; and Mrs. Lynn.

Mrs. Johns, the former Fannie Beam was born in Hope, N.J., the youngest of seven children. Her father was a veteran of the Civil War. The family moved to West Pittston where she met and married her husband, the late Edward Johns.

She was a Presbyterian and

was a Methodist, and they compromised by joining the Congregational Church. Later, they moved to Stroudsburg to be near her daughters, living next door to the present Lynn Home.

She was active for many years in the Dames of Malta. She is still active around the house, caring for her own room, helping with the dishes, accompanying the family on trips to town. Television is her favorite recreation.

The Johns were parents of seven children, including a son who was killed in the First World War. There are six grandchildren and three great-grandchildren.

Attending the party were Laura Miller, Dennis Miller, Mimi Miller, Susan, Randy, and Mark Oney, Mrs. John Miller, his grandmother, Mrs. Stanley Oney, and his aunts, Mrs. Ruth Ann Lowe and Mrs. Stanley Oney Jr.

In addition to his gifts, Ger

ald received a telegram from his maternal grandparents, Mr. and Mrs. J. W. Collins and his Aunt Nancy from Altus, Okla.

## Gerald Oney Jr. Party Marks 3rd Birthday

Barrett — Gerald Oney Jr., son of Mr. and Mrs. Gerald Oney, of Cresco celebrated his third birthday on Sunday.

Attending the party were

Laura Miller, Dennis Miller, Mimi Miller, Susan, Randy, and Mark Oney, Mrs. John Miller, his grandmother, Mrs. Stanley Oney, and his aunts, Mrs. Ruth Ann Lowe and Mrs. Stanley Oney Jr.

In addition to his gifts, Ger

**Suttons Mark 18th Wedding Anniversary**

Mount Pocono — Mr. and Mrs. John Sutton celebrated their 18th wedding anniversary over the Thanksgiving weekend.

Joining them for Thanksgiving dinner were Mr. and Mrs. William Welsh of Scranton, Mrs. Trevor Thomas and Lew Thomas of Elmira, N.Y., and Mr. and Mrs. James Pettyjohn and children, Margaret Coffman, Mrs. John Kolcun, Mrs. Graydon Bolcar, Mrs. James Lorenzen; Baby booth, Mrs. John Kulba, Mrs. Guy Nicolais, Mrs. Joseph Harrison;

Other visitors were Mrs. Robert McColligan, Bobby, Tommy, Diane McColligan, Peggy and Kathy Kline, and Mr. and Mrs. Harold Winegard, all of Scranton and Miss Delphine Jastrom of Shawnee.

Saturday the Suttons were guests of Mr. and Mrs. Robert Besecker for dinner at their home on Knob Road.

## Mt. Zion WSCs Has Program Of Thanksgiving

"Jesus Christ, the Light of the World," was the theme of devotions held in the Mt. Zion Methodist Church, Chipperfield Drive, at the November meeting of the Women's Society of Christian Service. Mrs. Earl Lee Jr. and Mrs. Howard Teada read "Our Heritage." Program leader was Mrs. Earl Lee Sr.

The business meeting that followed was held in the annex, with Mrs. Earl Sandt presiding. Reports were presented by Mrs. Teada and Mrs. Roy Heller. The report on self denial banks, used during the week of prayer and self denial, showed that a sum of \$16.25 had been received. The semi-annual opening of World Banks realized \$13.85. These monies will be used for benevolence.

Plans were made to hold a WSCS Christmas party on Friday night, Dec. 15, at 7:30, instead of the regular date. Each member attending is asked to bring some canned or other non-perishable food to be used in holiday baskets for needy families. There will not be an exchange of gifts.

Refreshments were served by Mrs. Earl Lee and Mrs. Earl Lee Jr. to the sixteen members present. One new member, Mrs. Clair Frailey was welcomed.

Portland Birthdays

Portland — Donna Wildrick, daughter of Dr. and Mrs. John Wildrick, Jr. observes her birthday anniversary on Tuesday, Dec. 5.

Mrs. E. Randall Carpenter and Mrs. Morris Hauser will celebrate their natal day on Wednesday, Dec. 6.

Todd has pledged to Phi Sigma Kappa.

## Party Souffle Fits Budget For Both Time And Money

By Cecily Brownstone  
Associated Press Food Editor

A cold souffle is always pleasant to serve to guests because a hostess can prepare it well ahead of a party.

In making this elegant dessert, it's well to give special attention to certain techniques. Why? Because we have heard cooks murmur that their creations do not reach the heights of the cold souffles they see in professional photographs.

If you've had trouble creating a really high cold souffle, and we'll admit we've had, you'll be interested in the techniques we found successful with the following recipe.

Make sure that you follow the recipe directions for beating both egg yolks and egg whites. We use an electric mixer for this. Be certain, before adding the sugar to the whites, that you beat them until stiff peaks form. This means that when you slowly lift the beater out of the whites, the peaks will stand straight up without bending over slightly at the tips. After slowly beating in the sugar, continue beating until the meringue is extremely stiff.

Fold the whipped cream (or whipped evaporated milk) into the chocolate mixture, not the other way around.

Impressive as this Mocha Souffle is, it won't make holes in a budget. At a recent New York supermarket prices, the souffle (using heavy cream) cost \$1.00; using evaporated milk, it cost 79¢.

Whether cream or evaporated milk is used, the souffle's flavor is delicious. However, its texture is "spongier" with evaporated milk than with cream—probably because more air is beaten in with the milk than with the cream.

## Korean Vets To Get Insurance Bonus

MORE than \$29,500,000 in Special Dividend checks are in the process of being mailed to more than 400,000 Korea Conflict veterans who hold "W" type Government insurance policies, John S. Gleason, Jr., Administrator of Veterans Affairs announced today.

The average dividend now being mailed to "W" insurance policyholders will be about \$72, depending upon the amount of the policy and the length of time it has been in force, the VA head said.

An additional 200,000 Korea veterans who have not yet converted nor exchanged their Government "RS" insurance for the "W" type policies will also become eligible for Special Dividend checks if they convert or exchange before the time limit September 14, 1963.

World War I and World War II veterans are not included in the present dividend distribution.

few weeks explaining the advantages of changing to "W" type policies.

"RS" insurance was issued to Korean Conflict veterans discharged between April 25, 1951 and December 31, 1956, as five-year term policies not eligible for dividends.

### The Daily Investor

#### Market Fluctuations

By William Doyle  
Q — I can't understand why, when a national or world figure has a heart attack, etc., the stock market takes a plunge. After a while, the market comes back up again and there you are. If stockholders would just let matters take their course, as they always do, they would save themselves a lot of trouble and worry.

Don't investors have any faith in our country's economy?

A — Of course they do. If they didn't they wouldn't invest in stocks at all.

But you must remember that the stock market is more than just a place where people buy stocks as long-term investments,

because they have faith in our free-enterprise, capitalistic economy.

Most people who buy stocks do just that. The average American investor hangs on to his stocks through thick and thin, good times and bad. The average investor sells his stocks only when he has a personal reason to do so — not because of sudden news events.

However, the stocks that are held by long-term investors and not offered for sale do not set market prices. The stocks that are bought and sold on any given day set the market prices for that day.

Don't forget that professional traders are always in the market to buy and sell, sell and buy. This activity, a necessity for free, open, active market trading, goes on all the time.

On sudden bad news, the "professionals" may do more selling than buying—sending stock prices down. Many non-professionals who "play the market" may do the same thing. The result may mean a big drop in the prices of stocks in general.

If, as you say, "matters take their course," stock prices usually come back up. But there is no guarantee that they always will. The people who panic and sell their stocks on sudden bad news may be right or they may be wrong.

Q — It seems to me that there is a real need for investors to be organized, as other groups are organized — labor unions, farmers, manufacturers, etc. These days, if you do not have an organization in Washington, D. C., to represent your interests, Congress walks all over you.

Is there any such organization, whose purpose is to present the investors viewpoint to Congress and to protect and foster the interests in various ways? If so, I would like to join it.

A — Yes. So far, I have ducked mentioning them in print — because it didn't seem right to name just a couple and not all. Letters such as yours come in all the time.

There are two major organizations of the type you ask about. They are Investors' League, 234 Fifth Avenue New York N. Y., and United Shareholders of America, 630 Fifth Avenue.

Besides these, there are a number of smaller and regional investors' organizations.

ZOOM — Like the old-time firemen, the squirrel power dives down aluminum pole to safety and away from the prying eye of the modern Cyclops known as a camera.

# IS THE COMMUNIST TIMETABLE FOR WORLD CONQUEST ON SCHEDULE?

1918

By skillful use of propaganda and mass terror, the Communists seized control of Russia. The Kremlin adopted a 21-point outline for world revolution. Lenin set the Communist timetable in these words: "First we shall take Eastern Europe. Next the masses of Asia!"

1949

Lenin's prophecy was fulfilled by Stalin! Romania, Bulgaria, Poland, Czechoslovakia, Hungary and East Germany—all of Eastern Europe was under Communist control. Stalin's military alliance with Mao Tse-tung spread Communism to the masses of China!

1961

Lenin also said: "We shall encircle that last bastion of capitalism, the United States... it will fall like an overripe fruit into our hands!" Now holding Cuba, the Communists plan to carry out their orders in Berlin, Laos, Africa, even Latin America!

Add It Up... The Recent Record Is Inescapable... The Speed Frightening

**1949 China**  
**1951 Tibet**  
**1954 N. Vietnam**  
**1961 Cuba**

THIS VERY MINUTE, the Communists threaten West Berlin, Laos, parts of Africa and Latin America.

So far the Communist timetable is running on schedule!

How can they be stopped? What can a private citizen do?

Look at the one big problem spot for Communism—Eastern Europe! Here, over 5 million people have defected to the Free World. Here the Communists are vulnerable. Here you can help—by supporting Radio Free Europe!

What does it do? Every day, to 80 million captive people behind the Iron Curtain, Radio Free Europe broadcasts the plain truth... religious services... the real news of the outside world. It keeps these people from succumbing to Communism... the people of Poland, Czechoslovakia, Hungary, Bulgaria and Romania. It keeps alive their belief in the Free World... their hope for the future... their friendship for America. Broadcasting from 28 transmitters, RFE reaches over 90% of these people.

The fate of these people is of vital consequence to the cause of freedom... the future of your children. Eastern Europe is the strategic area... the area of decision between Russia and the Free World. These captive nations help tie up 26 Russian divisions stationed to prevent uprisings. These captive people pose a major obstacle to the Communist advance. They depend on Radio Free Europe. It is their strongest link with the Free World!

But Radio Free Europe needs money now to continue its important mission... to become ever more effective. It is privately supported and depends on individual Americans. Your help is needed. Will you help stop the Communist advance?... Give ten dollars?... Give five dollars?... Or whatever you can!

### Minnesota After Roses

## College Grid Season Ends; Bowl Games Start Saturday

Alabama is taking a perfect record and possibly a national title into the Sugar Bowl, Minnesota is returning to the Rose Bowl and shell-shocked Army supporters are wondering when, if ever, they'll see another victory over Navy.

On these high notes, college football dropped the curtain on the regular 1961 season Monday and turned its attention to the plethora of post-season games which tax the appetite of the hardest gridiron gourmet.

The bowl season gets started as early as next Saturday when four games will be played, headed by the battle between Utah State

## Ohio State, Cincy Easily Win Openers

Ohio State and Cincinnati, pre-season picks as the nation's best, opened their seasons as expected — easily and impressively — as college basketball muscled in on the windup of football.

But the season's first big basketball weekend produced one full-scale shocker, Oklahoma's surprisingly easy 66-59 conquest of highly-touted Southern California.

Southern Cal., ranked No. 4 in a pre-season Associated Press poll of basketball experts, fell behind 32-25 at the half and trailed by as much as 13 points in the Saturday upset.

In addition to the Southern California upset, other major form reversals included three in the Big Ten — Drake over Indiana 90-81, Evansville's 65-59 conquest of Iowa and DePaul's 66-56 surprise.

But mighty Ohio State dumped Florida State 72-57 and Cincinnati handled Indiana State with ease, 86-63. Each followed much the same pattern — speed, defense, rebounding, accuracy.

Other ranked teams in action included Purdue (No. 6), which got 31 points from Terry Dischinger en route to an 86-70 triumph over Pitt; and Kansas A & State (No. 8) which combined a fast break and good shooting for a 94-52 frolic past New Mexico.

## Boston Nips Denver, 28-24

DENVER (AP) — The Boston Patriots struck on a 51-yard touchdown aerial and set up another score on a 59-yard pass interception in a whirlwind fourth quarter Sunday to beat Denver 28-24 and keep alive their faint hopes for a share of the American Football League's Eastern Division crown.

The triumph enabled the Patriots to remain one game behind Houston's division leaders, each with two games left.

Boston survived an aerial bombardment by ailing Frank Tripluka and two sensational runs by halfback Al Frazier to saddle the Broncos with their sixth straight loss, an AFL record.

Frazier's last thrust was a 90-yard kickoff return with four seconds left in the game.

# Patterson 10-1 To Retain Crown First Heavy Title Bout In Canada

By MURRAY ROSE  
Associated Press Sports Writer

TORONTO (AP) — Heavyweight champion Floyd Patterson opens his new twice-a-year fight program Monday night when he faces undefeated but lightly regarded Tom McNeely of Arlington, Mass., in a 15-round title bout at Maple Leaf Gardens.

The 26-year-old New Yorker, trim and fast at 190 pounds, remained a 10-1 favorite Sunday to annihilate the crude, 24-year-old former Michigan State football tackle.

McNeely, a 6-2, 200-pounder, will have the advantage at least in height, weight, and reach (7-7). When it comes to skill, power and experience, Patterson has everything going for him.

It will be a strange experience in one respect for the champion.

He will be meeting someone other than Ingemar Johansson for the first time in nearly 2½ years.

First Title Match

Canada's first world heavyweight title match will be the second of a novel closed circuit television doubleheader. In the opener (10 p.m., EST) of the electronic double bill, Sonny Liston, the reinstated No. 1 contender from Philadelphia, will oppose 10-1 underdog Albert Westphal of Hamburg, Germany, at Philadelphia's Convention Hall.

The intriguing attraction for the fans in both arenas and the theater-TV viewers will be a comparison of the skills and styles of Patterson and Liston even though they both are fighting low-rated opponents. The 210-pound Liston will be making a lightning pitch for a title while the proud Patterson will be out to look like a champion.

Championship Sports Inc. is promoting both fights. Teleprompter, Inc., is handling the telecast to about 150 theaters and arenas and more than 50 community television antenna systems in the United States and Canada. There will be blackouts of the theater-TV around Toronto and Philadelphia.

Four-Sided Screens

Fans in the Toronto and Philadelphia arenas will see the fight in the other city on four-sided movie screens. If the 10 p.m. EST Liston-Westphal fight ends quickly, as expected, the title fight will start around 10:30 p.m. (EST). If it goes the distance the championship contest will go on around 11 p.m. (EST).

There will be no radio broadcast of the title fight in the United States where the bulk of the theaters are located.

### Cards' Rally Downs Skins

ST. LOUIS (AP) — The St. Louis Cardinals rallied strongly down the stretch behind Sam Etcheverry and John David Crow and whipped Washington 38-24, Sunday, spoiling the Redskins' bid for their first National Football League victory in 22 games.

The Redskins held a 17-lead with only five minutes left in the third quarter when Etcheverry shifted an erratic Cardinal offense into high gear, firing two touch-down passes. Crow — moving at top speed for the first time since he broke his ankle in August — threw one touchdown pass and sparked the club with his running.

St. Louis got its first home victory this season after losing four straight.

A crowd of 16,204, smallest of the season, watched this one. The Cards now stand 5-7 for the season. The Redskins are 0-11-1, with only one tie for their efforts in their last 22 NFL games.

Washington 5 7 10 0 7-24  
St. Louis 7 0 10 21-38

### Titans Whip Dallas, 28-7

NEW YORK (AP) — The New York Titans, striking for two touch-downs within a minute late in the first half and getting another on a 40-yard run by quarterback Al Dorow, went on to defeat the Dallas Texans 28-7 Sunday. The victory kept the Titans in the race for the American Football League's Eastern Division title.

In all, the Titans engineered a pair of scoring drives on their own steam, and turned in a pass interception and fumble for two more.

All told the Titans recovered three Dallas fumbles and intercepted four passes. New York's defense bottled up Abner Haynes, Dallas' top running threat, holding him to only 15 yards in the first half and 45 overall in 16 carries.

New York 0 4 7 28-7  
Dallas 0 7 0 7-28

Duke climaxed a good season with a 37-13 triumph over Notre Dame.

In other traditional games, Tennessee won over Vanderbilt 41-7; Holy Cross beat Boston College 38-26; Miami (Fla.) edged Florida 15-6; North Carolina shut out Virginia 24-0; Texas Tech whipped West Texas State 16-14; and Texas Christian and Southern Methodist played a 28-28 tie.

U. S. Ski Team Nears Chamonix

GENEVA (AP) — The United States ski team arrived Friday en route to its world championship training camp at Val D'Isere in France.

Coach Bob Beattie of the University of Colorado, said the six men and five girls would spend the next two weeks at Val D'Isere in rigorous training.

The world championships are scheduled at Chamonix, France, Feb. 10-18.

Brewer Golf Victor

WEST PALM BEACH, Fla. (AP) — A relentless Gay Brewer Jr. posted his fourth straight sub-par round Sunday and won his second straight PGA-sanctioned tournament with a 14-under par total 274 in the West Palm Beach Open.

Dave Ragan Jr., Don Bisplinghoff, Pat Schwab and Doug Sanders played on the same University of Florida golf team. Sanders was team captain.

## Pennsylvania Hex Artist Seeks Technique Revival

**LENHARTSVILLE, Pa. (AP)** — Johnny Ott thinks his art—a rare one—is in danger of dying out, not for want of business but for lack of artists with the proper know-how.

Ott is one of the few of his craft left, a 71-year-old painter of hex signs, still a flourishing commodity in this Pennsylvania Dutch stronghold in the eastern part of the state.

The hex sign is best known popularly as a brightly colored, cabalistic device for putting the whammy on somebody or something. It has been associated with witchcraft, poltergeists and pretty

much the whole hoodoo brood. Actually, the hex patterns hide a softer, more benevolent, less publicized side. They are good luck charms, symbols of virility, status, fidelity, faith.

Although commonly pinned down to the Pennsylvania Dutch country, the hex designs are much in demand elsewhere, Ott said Sunday. Some of his best customers are such dissimilar places as the deep south, the far northwest, Canada, Mexico, West Germany.

Only recently, Ott related, a doctor in West Germany wanted two hex signs. "What do you suppose for?" Ott went on. "To keep the Russians out."

Ott said he started painting hex signs as a joke 17 years ago, but before long found himself taking it seriously, even though he didn't go in for the superstitions.

He became so wedded to the art that a year or so ago he started wondering what was going to happen to it. Who would carry it on?

"So I took in a half dozen pupils, for free," he continued. "I worked very hard with them, teaching them all I know about hex signs."

And that's a lot. For Ott has delved deeply into the folklore of it, so much so that he coined a name for what he does and is—a hexologist.

Right now he has only two pupils—the other four were too young to show much aptitude. Both are girls, going into their teens, and, in the teacher's words, doing remarkably well. Ott plans to start a class of older pupils as soon as he can find the time.

"I simply have too much work at the moment," he explained. If I didn't take another order, I'd have enough to keep me busy until Easter."

Working mostly at night, Ott creates 40 to 50 signs a week, the circular designs varying in size from one to four feet across, and bringing in \$3 to \$75 apiece, depending upon size and motif. He has 50 designs of four basic hexes.

"First, there is the daddy of them all," said Ott. "That's what I call it because it goes way back to 1453. You still see it in church windows. It's to prevent disease, famine, plague." This has many variations. Often they are brilliant color patterns rather than pictorial representations.

Then there's a pattern of oak leaves and acorns, for strength of mind and body. Next a rain and sun theme, for fertility in life and productivity of crops.

Highly regarded, Ott said, is the marriage sign, "which has love birds, distlefinks (gold fin-

Dear Abby

## No Better Answer!

DEAR ABBY: We are twins (16) who read your column every day and respect your opinion greatly. So do our parents. Our parents forbid us to date boys out of our religion. We don't intend to get serious about these boys, we just want to date them. Isn't it better to go with them and get it out of our systems than not be able to, and think we are missing something?

THE TWINS

Dear Twins: The following letter was received the same day yours came. It's as good an answer as I could give. And it's from a girl your age: "Dear Abby: I have been wanting to write this letter for a long time. I read your fabulous—and I do mean fabulous—book, 'Dear Teenager.' I followed your advice on personality and dating out of my faith. As a consequence, I am now going steady with the most wonderful boy in the world. He is of my own religion and he treats

him and her right over and put it in first-class condition. Afterwards, I told my husband and we all had a good laugh about it. Ever since then I have had no trouble getting things fixed at home.

G. A.

'SWEET 16 AND NEVER BEEN HAPPIER!'

\*\*\*\*\*

Dear Abby: I want to ask you in all seriousness—how can a man be if his prospective bride is virtuous or not?

SERIOUS

Dear Serious: Ask her!

\*\*\*\*\*

Dear Abby: Please tell "Sucker's Wife" my husband used to make himself available for help all over the neighborhood while I had trouble getting him to fix things at home.

One day I took my baby's broken high chair to a neighbor's and got her to call my husband and ask him to fix it. She called

I've been in the sewing machine business since 1937, and have been taken advantage of many times, but I don't think I am all the off for it. Will you write the lady and tell her I will be delighted to fix her sewing machine FREE if she'll pay the freight both ways?

Sincerely,  
W. L. L.  
Fayetteville, N. C.

Dear W. L. L.: You are very generous. The lady lives in Honolulu.

Everybody's got a problem. What's yours? For a personal reply, send a self-addressed, stamped envelope to Abby, in care of this paper.
